

U.S. AIR FORCE

Air Force Content Management Program

Partnerships using IMTs with the Functional Communities

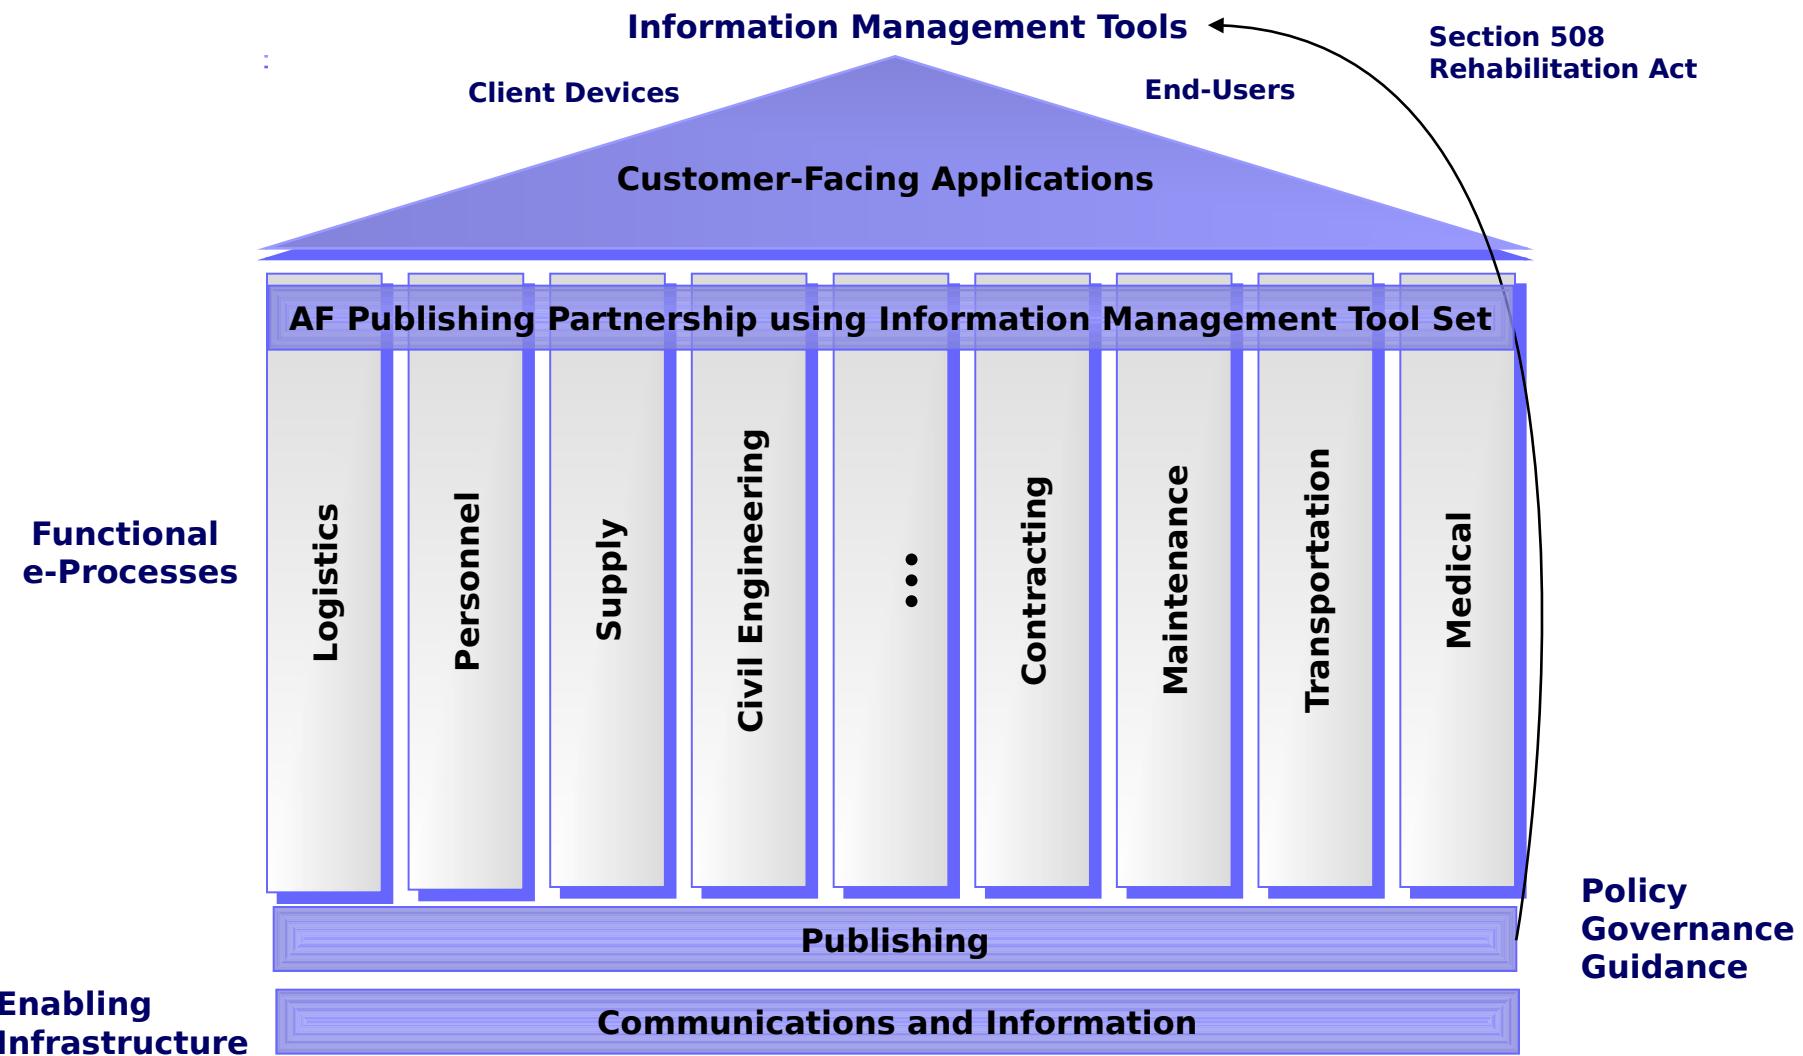

**Partnering to Revolutionize
Air Force Information Management**

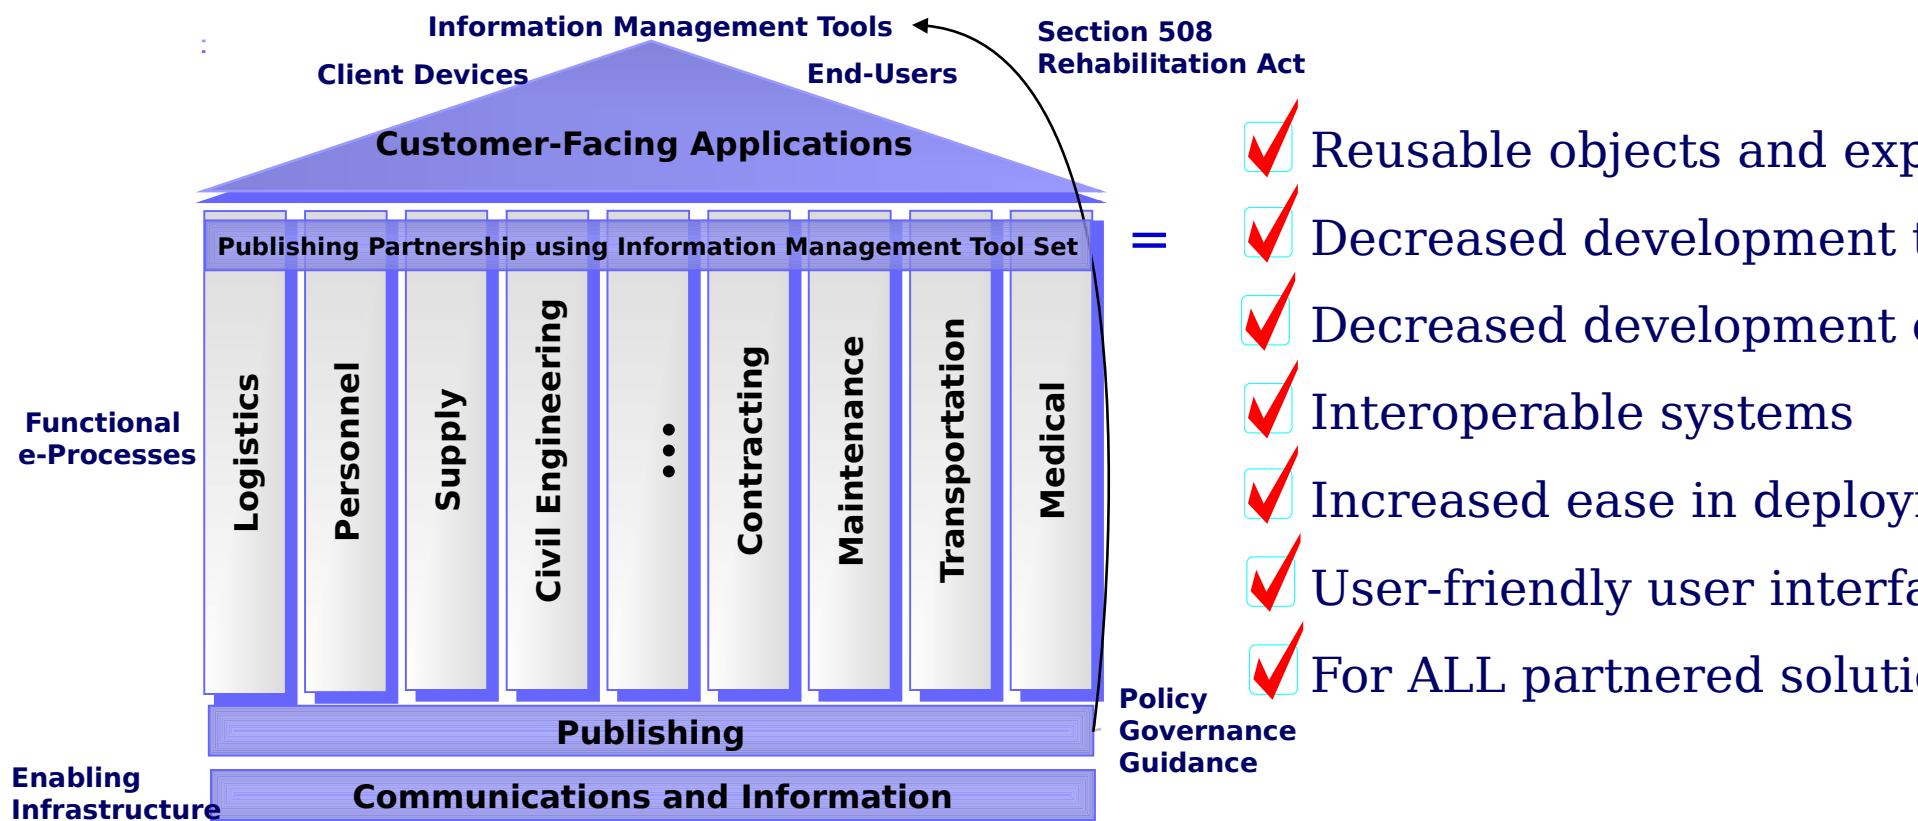

- Eliminate forms as we know them
- Review each form to determine if data collection is still required
- Create intelligent information management tools
- Partner with functional communities to develop solutions
- Decrease Air Force wide AIS development costs
- Deploy interoperable tools that work with existing and planned AISs
- Make processing information simple, user friendly
- Decreasing time and effort required to process ALL information

Publishing in the operational value chain

Publishing in the operational value chain

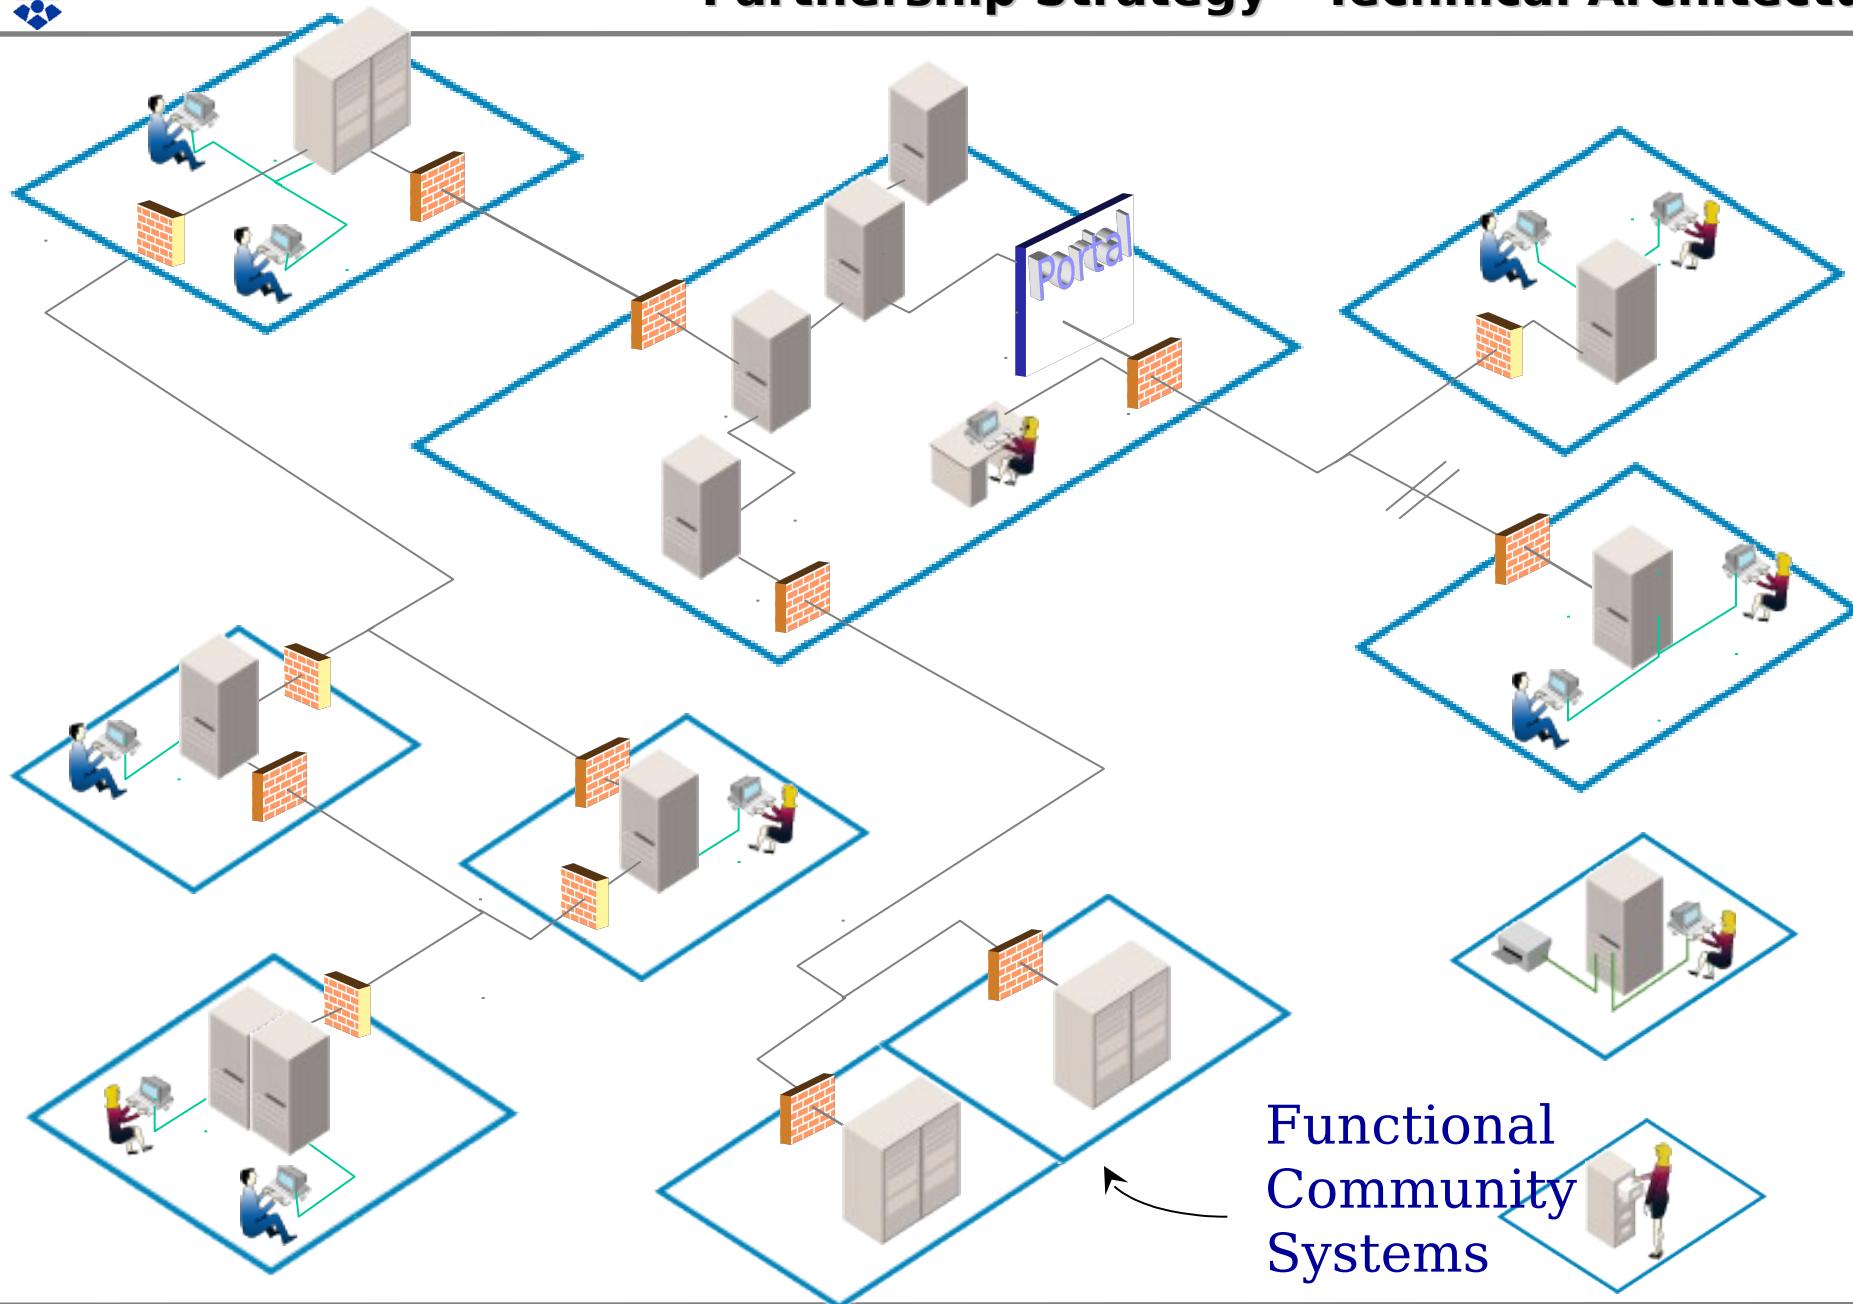

- Existing automated information systems that automate forms-based processes
 - Partner to identify synergies to integrating solutions
 - Plan integration at end of legacy system lifecycle
 - Create seamless interface to solutions on Content Management System (CMS) and legacy systems
- Planned automated information systems that automate forms-based processes
 - Partner to identify the cost benefit of building solution in CMS architecture
 - Use existing functional and technical requirements to design and build solution
- Newly identified automated information systems that automate forms-based processes
 - Partner to identify the cost benefit of building solution in CMS architecture

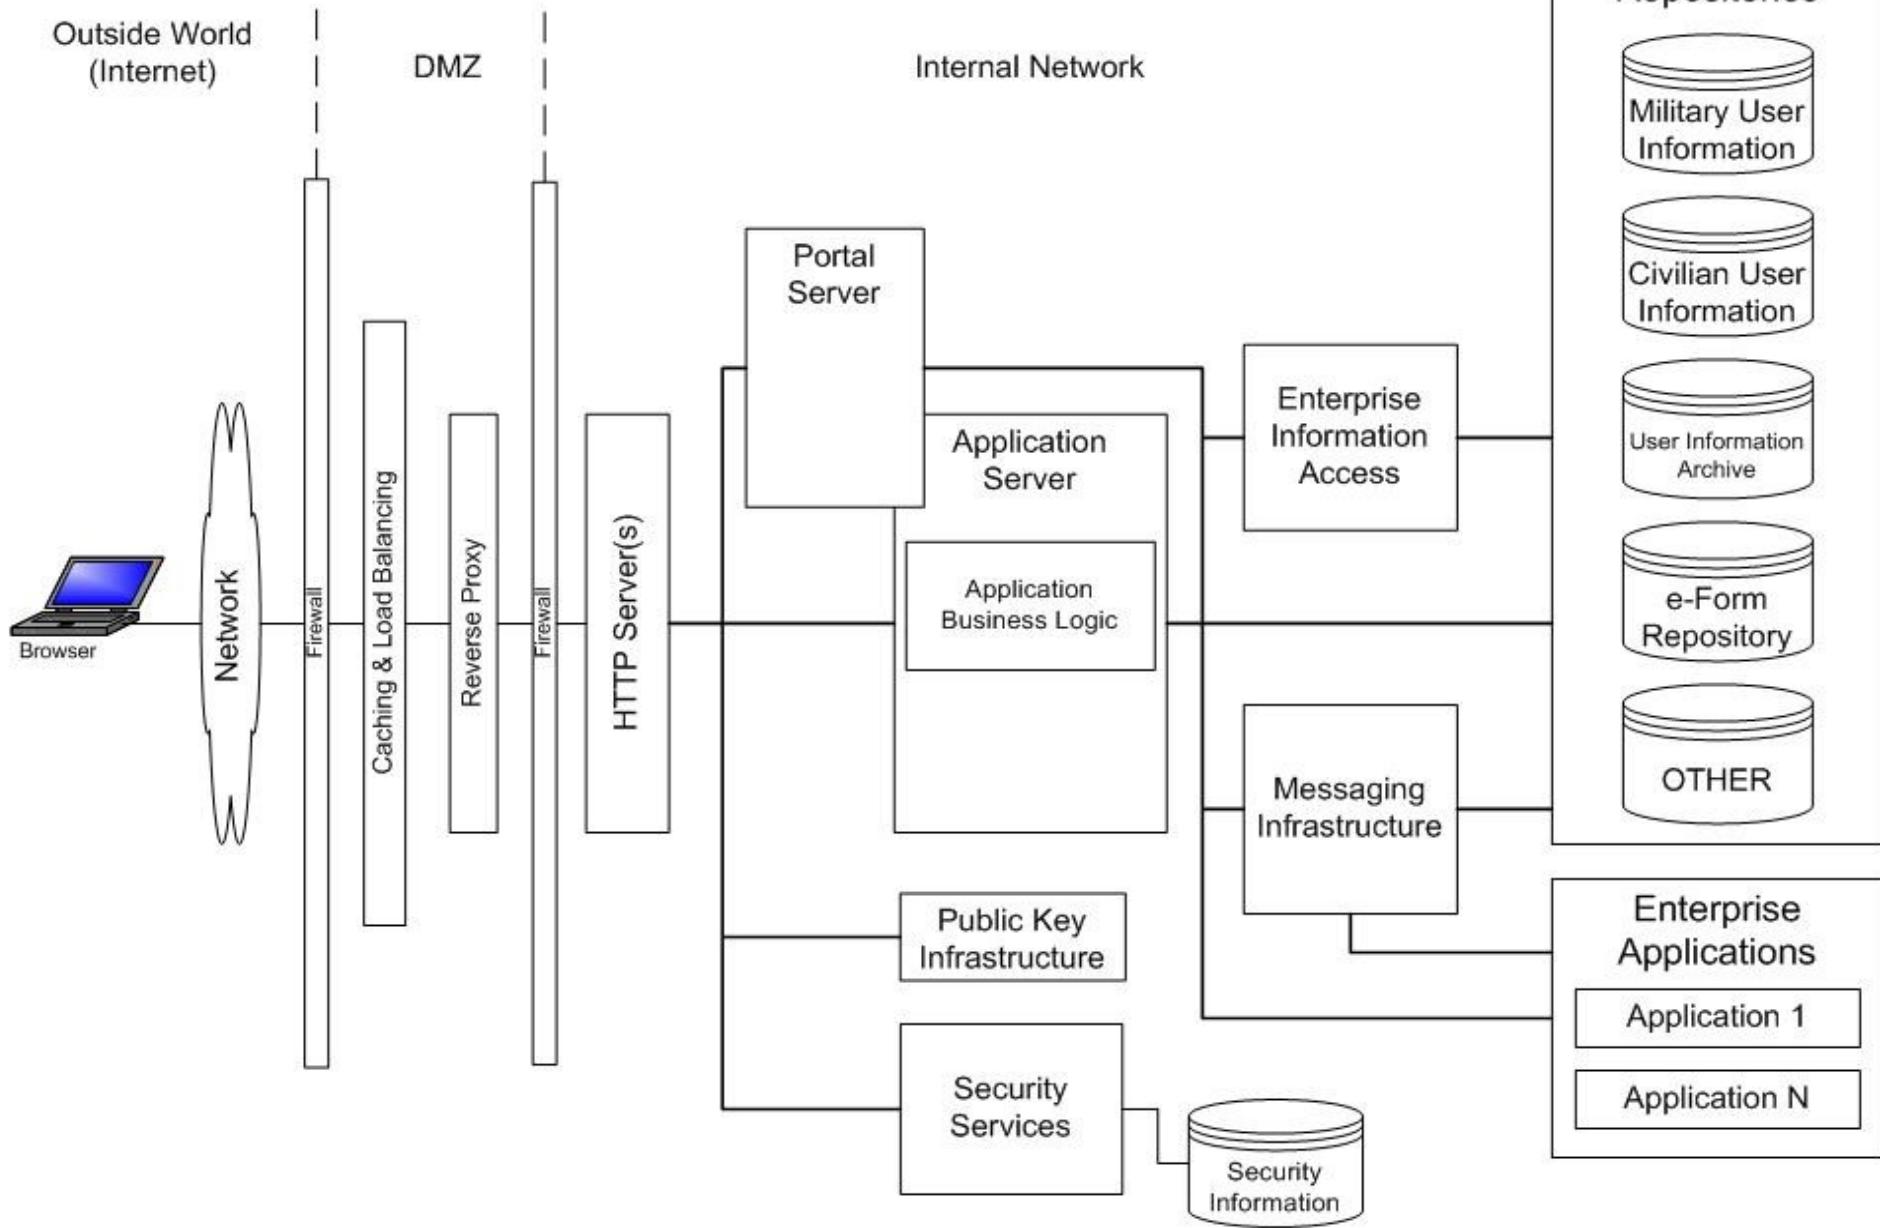

- Air Force Military Personnel
 - vMLR/WebBoard (PRF & AF 1206)
 - Officer & Enlisted Evaluation Systems
 - Completed prototype
 - Partnering with AF/DP and AFMC to design and deploy AF system
- Air Force Civilian Personnel
 - Civilian Personnel CyberDocs/Jetform Interface - Completed integration of the new Information Processing Tools
 - Appraisal and Awards System - Discussions ongoing about automating these processes on CMS

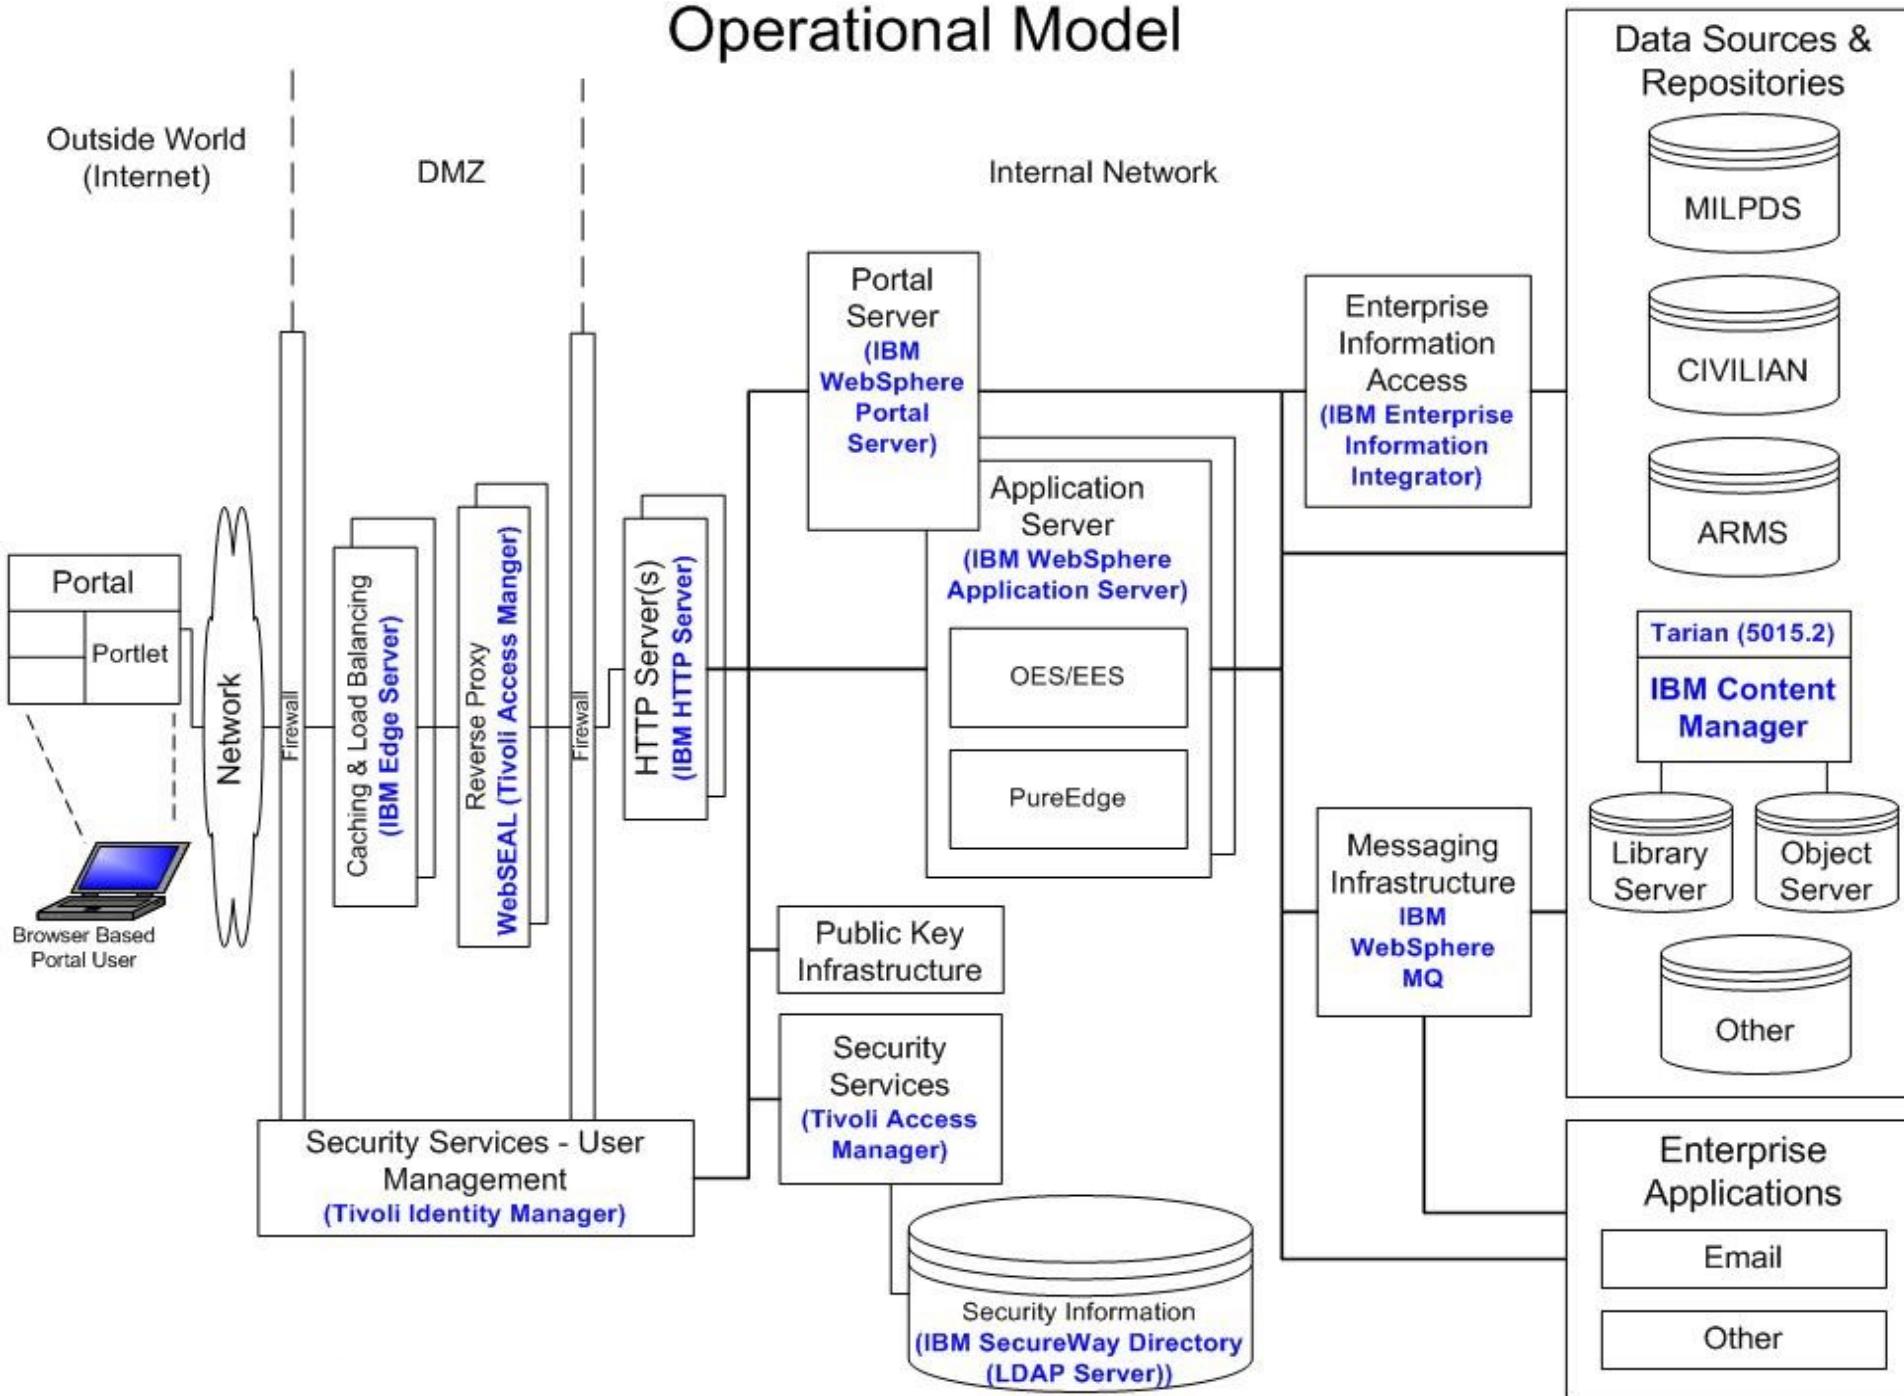

- Air Force Reserve Recruiting System
 - Using Air Force Recruiting System built in Oracle
 - Integrating PureEdge technology for front-end of Oracle System
 - Integrating intelligence of 50 Reserve IMTs
 - Scheduled to be fielded by the end of 2002
- AFMC Chief Technology Office
 - Partnering to design and test Content Management System implementation
 - Partnering to design and test Officer and Enlisted Evaluation System on CMS architecture
 - Investigating the use of the CMS architecture for other AFMC e-business initiatives to include PDA/Wireless

Section II, Unit mission description

Please provide a description of primary unit responsibilities. Limit to four lines.

Unit Mission Description

Provide Publishing product and program execution

U.S. AIR FORCE

COMPANY GRADE OFFICER PERFORMANCE REPORT

Section V. Performance factors

Please review the six factors rated on a two-block scale. All officers require these qualities in performance of duties regardless of specific job. Enter an "X" in the appropriate box for each factor after carefully evaluating the officer's performance and qualities. A "Does Not Meet Standards" rating or referral remark requires an explanation.

1. Job Knowledge

Has knowledge required to perform duties effectively.
Strives to improve knowledge.

DOES NOT MEET STANDARDS	MEETS STANDARDS
----------------------------	--------------------

2. Leadership Skills

Sets and enforces standards. Works well with others.
Fosters teamwork. Displays initiative. Self-confident.

COMPANY GRADE OFFICER PERFORMANCE REPORT

U.S. AIR FORCE

Section VI, Rater overall assessment

Last performance feedback was accomplished on: (Consistent with the direction in AFI 36-2406.)

(If not accomplished, state the reason.)
